Summary

Full-Stack developer and JavaScript enthusiast

A budding enthusiastic web Developer, passionate about JavaScript development and eager to utilize my skills and knowledge to contribute to the growth of an organization. After graduation, I enrolled in a eight-month coaching program at "Attain-u" to enhance my skills in MERN stack development. During this program, I worked on live projects and gained hands-on experience, preparing me to contribute effectively to a professional team. I am eager to apply my skills and knowledge in a challenging role.

Skills

MERN Stack Development, JavaScript, HTML and CSS, Bootstrap, React JS and Redux, Express.js, MongoDB, Nodejs, socket.io, Version Control and code collaboration(GitHub)

English, Telugu

Projects

1. Barber Shop Appointment Scheduling App (Backend project)

- Designed and developed a web application for a local barber shop to allow customers to book appointments online.
- Used EJS templates, Bootstrap 5, CSS, Express, MongoDB, and Node.js to create a user-friendly interface and a scalable backend.
- Implemented secure authentication and authorization features to ensure the privacy of customers' information.
- Collaborated with the owner of the barber shop to identify their business requirements and delivered a customized solution that met their needs.

2. Product Re-sell(MERN Stack)

- Sell your old products and find affordable alternatives by buying pre-owned items, providing a solution for those seeking better options and a lower budget.

- Used React.js , Bootstrap 5, CSS, Express, MongoDB, and Node.js to create a user-friendly interface and a scalable backend.
 - Implemented secure authentication and authorization features to ensure the privacy of customers' information.
-

HOBBIES

My hobbies include visiting holy places during work breaks,Which brings peace to my mind and going for trekking,Which helps in developing my internal strengths.
